Mr. Raich

My wrestlers and I would like to thank you for introducing us to BioShield75. This year we used BioShield75 to treat our mats, locker room, restrooms, ect. As a result, we have seen a dramatic 90% decrease in infectious diseases such as Ring Worm, Herpes, Impetigo, Staph, Athletes Foot, and others including various outbreaks among these athletes.

I am glad that there is finally a product that is proactively protecting our children from infections causing diseases and I am thrilled with the results of BioShield75.

Thank you,
Jeff Prescott
